Contents

1

Background and Objectives

Study Background and Objectives

6

PC Usage Dynamics

- PC Usage Details
- Recent PC Purchases
- Current Brand Usage and Factors Driving Brand Selection
- Satisfaction with Current Brands
- Future Outlook

2

Methodology

- Detailed Methodology
- Nationally Representative Sample

3

Executive Summary

- Key Takewaways
- SMLB Highlights

4

Market Opportunity & Firmographics

- PC & Mobile Device Opportunity
- Firmographic Highlights

5

Business Challenges, Decision Making & Attitude

- Key Business Issues
- Future Action Plans
- Importance of Straegic ICT Issues
- Buying Behaviour
- Purchase Decision Making

Mobility Transformation

- Usage of Mobile Devices
- Replacement Cycle
- Currrent Brand Usage & Satisfaction
- Future Brand Preference
- Workload Migration from PC to Mobile Devices

8

Mobile Device Policies and Support

- Distribution Policy
- Reimbursement Poicy
- Procurement & Service-Support Policy
- Data Plans

9

Channel Usage

- Purchase Channels for PC
- Purchase Channels for Mobile Devices

Background, Objectives

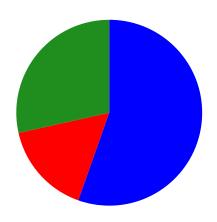

Study Background and Objectives

Background

SMLB PC & Mobile Device Spend

- SB = 1-99 Employees
- MB = 100-999 Employees
- LB = 1,000+ Employees

The Global PC Market landscape is rapidly evolving with varying degrees and nuances across different regions within the commercial (business) market segment.

This study has been conducted in leading countries across the Americas, Europe and APAC regions, which drive significant share of PC and Mobile Device spending.

This report focuses on the PC and mobile device usage among small (1-99 empls), medium (100-999 empls) and large (1,000+ empls) enterprises in Germany.

Objectives

Analyze the SMLB segments to better understand and explore PC and mobile device purchase dynamics and SMLB buyers' needs, mindset, motivation, influencers, triggers and purchase drivers with respect to brands, form factors, solutions and channels.

Methodology

Detailed Methodology

- Prepared a comprehensive questionnaire covering the ICT usage and spending overview of SMLBs as per various sub-parameters, e.g., Firmographics, Business Decisions, IT Infrastructure, Cloud, Mobility, etc.
- Established a national level sample to derive good representation, including quotas for each Employee-Size and Vertical Industry category
- Implemented structured online questionnaire after telephone screening.

- Screened and recruited approximately 4X- 5X to reach target 'N" values at a country level. Final output weighted based on National distribution.
- Applied extensive data validity checking process.
